Thursday 8:00 am - Noon Lunch will be provided noon to 1:00 pm

THURSDAY
8:00 am - Noon

Lockmasters' LKM10K FF-L-2890C Pedestrian Door Lock

Instructor: Kevin Moores

Spend four hours with the product manager of the most popular SCIF ICD-705 pedestrian door lock series. Learn about applications for each type as well as options such as Automatic Bolt Retraction & Exit Alarm. Ideal time to ask questions about installation and more. Not a installation certification class.

LKM10K
High Security Life Safety Exit Device

THURSDAY
8:00 am - 5:00 pm

ASSA ABLOY Basic Low Voltage Electricity for Installers

Instructor: Rodger Schmidt

Featuring a balance of presentation and hands-on exercises, this entry level course is designed to introduce students to the basics of direct current (DC) electricity for low voltage locksmiths and contractors working on electronic locking and access control systems.

- Basics of AC and DC electricity.
- Electrical concepts like voltage, amperage, ohms, and continuity.
- How to use a multimeter.
- Development of circuits.
- Identifying normally open (NO) and normally closed (NC) circuits.
- Common electronic door hardware.

ASSA ABLOY
Opening Solutions

ASSA ABLOY Advanced Electronic System Wiring & Basic Troubleshooting

Designed for learners already familiar with basic wiring and circuit development, refine electronic system knowledge and skills and discover practical troubleshooting techniques in this hands-on course.

- Create fail safe and fail secure wired systems.
- Request to exit (REX) devices.
- Relay logic.
- Connect simple electronic door hardware systems using electric strikes, maglocks, keypads, buttons/switches, and power supplies.
- Troubleshooting those components using a multimeter.

*Required to take these two classes together.

Thursday 1:00 pm - 3:00 pm

THURSDAY
1:00 pm - 3:00 pm

Signals Defense RF and IR Film and More

Instructor: Eric Kuczynski

This seminar covers the introductory basics of RF shielding and it's importance in the security world. The content speaks to architects/designers who are approaching or knee-deep in the SCIF design, and general contractors pursuing or actively building SCIFs. Topics include:

Why RF shielding

- How its application has evolved over time.
- Windows.
- Walls/partitions.
- FAQ's and what to watch for.

FREE Manufacturer Training

Friday 8:00 am - 5:00 pm Lunch will be provided noon to 1:00 pm

FRIDAY
8:00 am - Noon

dormakaba LaGard 700 Series Certification Class

Instructor: Chris Snowden

This session covers key installation steps, best practices, and common mistakes to avoid when working with dormakaba's LA GARD 700 Series electronic locks. Designed for technicians, the training includes high-level product insights and practical tips for successful field installations.

dormakaba

FRIDAY
8:00 am - Noon

ASSA ABLOY Electric Strike Application & Installation

Instructor: Rodger Schmidt

Begin with an overview of site surveying to determine what you need to consider to ultimately select the best electric strike for the application. Then, focus on installation, with instructor demonstrations and hands-on practice of installation techniques and safety practices.

- Recognize the key factors when selecting a strike for an application, including aluminum storefront and all glass considerations.
- Assess how to match a door lockset to an electric strike.
- Summarize building codes as they apply to electric strikes.
- Install an electric strike into a hollow metal door frame.

ASSA ABLOY
Opening Solutions

FRIDAY
1:00 pm - 5:00 pm

dormakaba Auditcon Series Certification Class

Instructor: Chris Snowden

This course provides an overview of dormakaba's Auditcon electronic locks with a focus on proper installation, programming basics, and common troubleshooting tips. Technicians will learn best practices and do's and don'ts to ensure reliable field performance.

dormakaba

FRIDAY
1:00 pm - 5:00 pm

Allegion Von Duprin Exits - Expand Your Exit Knowledge.

Instructor: Scott Biltonen, Field Support Specialist

Class topics will include:

Basic understanding of Von Duprin exit hardware parts and components.

- EL and QEL electrified components and operation.
- Proper power supplies and wiring requirements.
- Mechanical operation, latch and rod adjustment, troubleshooting, repair and replacement of parts.
